

HELP US CELEBRATE PARTY FOR THE PLANET

Today we celebrate the world's amazing and diverse wildlife and how we can protect and preserve the planet for future generations. This year, we *Spring Into Action*, inspiring everyone young and old to do something that enriches themselves and the world around them, and challenges them to take action!

ANIMAL ENRICHMENT DRAWING

When you're bored you play a game, read, run outside or do other activities to stay busy. At the Virginia Zoo, animals are given enrichment to encourage natural behaviors and help keep them engaged. Enrichment can be anything from food, a new toy or even a re-purposed cardboard box! Can you read each clue and draw the animal's enrichment item?

ZEBRA I enjoy produce and something chewy and sweet.

answer: carrots and sweet feed

SUN BEAR My long tongue is perfect for licking up this sticky, sweet liquid.

answer: honey

WHITE RHINO I like pushing and kicking this around my exhibit.

answer: boomer ball

RHINO HORNBILL I can solve this within minutes and find food in the process.

answer: puzzle feeder

ALDABRA TORTOISE I love eating bright foods, especially this popular fall produce.

answer: pumpkin

RED PANDA I enjoy finding these small fruits inside another type of enrichment.

answer: grapes and cardboard boxes

PARTY FOR THE PLANET

The best, and perhaps easiest, way to take action to save the environment is to take advantage of the four Rs: **Reduce, Reuse, Recycle**, and something new at the Zoo – **Refuse**. For this activity, write down the items you may use daily that you can use less of, re-purpose, recycle to be made into new items or stop using completely!

REDUCE
REUSE
RECYCLE
REFUSE
